# FORMIDABLE TASK.

Large Force Needed to Cope With the Chinese Army.

REPUBLIC SPECIAL. New York, June 22.-It is now evident that some, at least, of the regular forces of the Chinese Empire are engaged in warfare with the troops of the Powers represented at Pekin. If the international column of Admiral Seymour and the troops landed at Taku for the protection of the concessions at Tien-Tsin had only to cope with the hordes of Boxers the task would be for-midable enough, but if they are opposed in addition by the regular forces of the Imperial Government stationed in and around Pekin, which number at least 60,000 men, Pekin, which number at least 60,000 men, armed with modern weapons of precision

forcements which are being hurrled to China may be insufficient.

Lord Charles Beresford during his tour in China in the autumn of 1898 had some ex-ceptional opportunities of examining the condition of the Chinese soldiery, and this estimate is based upon his report to the British Government: In the province of Chi-Li, of which Pekin

is the capital, the army of General Yuan Shi Kat was found by Lord Charles Beres-ford to be the only army complete in all details, according to European ideas. It consisted of 7.400 men, mostly from Shan-Tung and Huan, from which parts come the best Chinese soldiers. The army was Chi-nese, pure and simple. The infantry were armed with Mauser rifles of German make, the cavalry carried lances and rifles and the artillery consisted of ten batteries of different calibers, throwing from one-pound to six-pound projectiles. In the neighbor-hood of Pekin itself there were at that time—October, 1898—about 20,000 men well equipped with modern Mansers, Krupps and Maxims. In addition about 25,00 well-trained soldiers are scattered over the disturbed districts, to say nothing of the 300,000 irregulars, who are more or less identified with the Boxer movement.

"If the Empire has to be divided," he said "I am most certainly in favor of getting the proportion of territory that belongs to this mtry. The fact that we have the Phil ippines will not insure us full commercial advantages if China goes into the hands of Europe. You may be sure that those countries are not risking everything to get some Chinese territory for the fun of the thing. #### "POWERS NOT FULLY AGREED." Result of Inquiries Made at Em-

bassies in Berlin.

Berlin, June 22.--Whether the Powers interested in China will ultimately reach an agreement regarding concerted action, it eems to be certain, judging from the results of investigations made to-day by the correspondent of the Associated Press, that no such agreement has yet been reached. The same series of questions was put successively to the German Foreign Office and to the Russian and French embassies. The German Foreign Office said:

"The Powers just now."

"The Powers just now are agreed as to the three points only, the relief of Tien-Tsin and Pekin, adequate satisfaction for the severe injuries European interests nave sustained and the establishment of guarantees against the repetition of such out-rages. Beyond this the attitude of the Powers will largely depend upon what has really happened in Pekin, which is still

really happened in Pekin, which is suit unknown to Europe."

The reply of the Russian Ambassador, Count Osten-Sacken, was substantially the same as that of the German Foreign Offace, except on two points. The Ambas-sador said, with much emphasis:

"The intervention of the Powers in China must, under no conditions, mean a settle-ment by war of old scores with the Chinese Government, and it must not embrace gov-ernmental reorganization. Especially, it must not include a change in the head of

the Government. Even if the Chinese and the international armies come into col-lision, these considerations must never be lost sight of." The French Ambassador, Marquis De Nonillos, expressed a different view, While substantially coinciding with the pro-gramme of the German Foreign Office, he insisted that the removal of the Empress Dowager and her clique would be necessary to secure the permanent results which

the Powers desire.

The Washington Government several days ago inquired through United States Ambassador White regarding the where-abouts and safety of a number of Ameri-can missionaries, located within the German sphere of influence in Shan-Tung. unable to furnish a satisfactory reply.

The semiofficial Berliner Post has a special dispatch from Rome, asserting that the Vatican has applied to the French Government, urgently entreating that larger re-enforcements be sent for the protection of Christians in China. The reply of the Paris Cabinet, according to this cor-respondent, is that the matter will be

treated in harmony and solidarity with the other Powers.
The Chinese embassy having received several anonymous letters threatening ven-geance should the news of the murder of the German Minister in Pekin, Baron Vor Ketteler, prove to be true, it immediately applied to the Berlin police for protection, and a number of men in plain clothes now patrol the precincts of the embassy night
